ABSTRACT

This work applies a Transformer architecture to the task of symbolic music generation. The generative process is conditioned on sentiment to steer the perceived emotion of the generated piece of music.

3.1 Figures, Tables and Captions

Include at least one table to display the results and **Graph of the Model Architecture**

All artwork must be centered, neat, clean, and legible. All lines should be very dark for purposes of reproduction and art work should not be hand-drawn. The proceedings are not in color, and therefore all figures must

Table 1. Table captions should be placed below the table.

make sense in black-and-white form. **Figure and table numbers and captions always appear below the figure.** Leave 1 line space between the figure or table and the caption. Each figure or table is numbered consecutively. Captions should be Times 10pt. Place tables/figures in text as close to the reference as possible. References to tables and figures should be capitalized, for example, see Figure ?? and Table 1. Figures and tables may extend across both columns to a maximum width of 17.2cm.
